---

have you ever thought of cops don't want to work in tracy? tracy has more work than any other department arround. They get new cops but they also have cops retiring and getting permoted.

I've known people who have sent employment inquiries to Tracy's HR department in regards to jobs at the Tracy Police Department, and they didn't get a single response from HR. And these were just the basic questions about what jobs are open.

If we are having hiring problems at the Tracy Police Department, we may want to take a good look at how employment inquiries are handled by Tracy's Human Resources department.
