maybe putting an area for graffiti/artist?

maybe gang vandalism wont stop... but will help graffiti in our town go down? most tags i see is graffiti related not gang signs like x4 blah blah and so on.

what do you guys think?

Jack, I can see where you are coming from with the thought but I think the problem is most graffiti in town is gang related. The point, as stupid as it is, is to mark territory. I can't see that giving a wall for graffiti will do anything to lessen the problem in town. Once again, we are back to parental control. Too many people in town believe their children are angels. The answer is accountability.
