The place is great, the food is great and you will love it! Everything is good but highly recommend the Brisket! Ribs are awesome too but the rib tips are lil' dry so skip those. But you will truly love everything and the atmosphere and great friendly service

5 of us went this past Sunday and it was... ok. The service was just ok, the food was nothing to write home about, and the prices were appropriate for the amount of food we got. It's really nothing that special and that's pretty disappointing.

Our son went to Famous Dave's, came home and gave us 40 bucks and said go out and try this place, it's great. Ya it was. The atmosphere, the service, of course the food. The food came fast! We walked out full, happy and satisfied. Couldn't even eat the dessert we were so full. I like the mustard sauce that is on the side of the table along with other dipping sauces. There are rolls of paper towels on each table and I thought how great. The paper towel holders were made from galvanized pipes and the entrance door handles were, so you know it is different as soon as you walk in. Great place to eat. I saw one family that ordered the Famous Feast which comes on a garbage can lid. Family friendly!

:P Famous Dave's is a breath of fresh air! Tracy has needed something different for a long time and the minute you walk in, you feel like your not in Tracy anymore.

Outstanding food, good service, and the table set up is very different. It was a bit pricy when you have teenagers, however, the food is very re-heatable so the food was taken home and became leftovers, however, still tasted like freshly cooked.

I love their decor!
