
Two comments on commenting a story

Posted by marco - 2007/05/13 06:21

I tried to comment on an article today. But I had a hard time:-)

* I wrote more than what was allowed so I had to split the comment into pieces:-)

* The little captcha setup did not like my responses in a couple of attempts:-) (Does it try to use upper and lower case letters?)

Thanks,
-- Marco

Marco -

There is a word limit for comments. I'll extend it a bit more.

As for the captcha security thing - use a lower-case letters. Also, if you are a registered user, you don't need to type in the security letters.

Hope that works.

Thanks. A little hint on the character limit somewhere might be good. Otherwise, the user types and in the end struggles to get the comment in.

My next question;-) I don't see my avatar picture in the comments? There is a space for a picture, but for whatever reason, it's currently not linked.

Thanks,
-- Marco
