I wasn't expecting advertising for commercial sporting events in this forum. Normally the Press charges for advertising.

I just paided \$78.00 to the Tracy Press for a two day Add. I did'nt know there was free add space here on this forum. Next time i'll just use this space for my add.

I could see if someone wanted to post something about school plays, the summer concerts in the park, club and scouting events, fundraisers, and other special events in town open to the public. The original post just did seem too commercial.
