the ourtown section..

i think needs to be updated.  
it takes like a week for them to get it up.

Well the current Our Town has been on the site for over a month. I don't understand why it's so difficult to update the site weekly. The main page of the site has been getting better on being updated every morning.

They really need to work on the website and figure out all these problems fast.

We've been real monkeys about updating Our Town every week.

This week's Our Town has been uploaded, and we will upload them every week in the future. Past Our Towns have been missed on the web, too - we'll upload those, hopefully soon.

How long before you will be able to archive the May 12th edition? I'd REALLY like to see it ....
